PROFILE

Detail-oriented Full Stack Developer with a passion for building sleek, user-friendly web applications using
modern technologies. Skilled in both frontend and backend development with a focus on performance, UX,
and scalability

WORK EXPERIENCE

EasyShop

- The EasyShop site is an e-commerce platform featuring multiple product categories like laptops, shoes, earbuds, and more—all curated in a clean.
- Branding is modern and minimal with a focus on usability—clean typography, clear pricing, "Add To Cart" buttons, responsive layout.

Fluently

- Fluently is an AI-powered language learning web app that helps users practice speaking, listening, and comprehension through interactive voice conversations.
- It combines GPT intelligence with ElevenLabs and Whisper to create a fully immersive, real-time tutoring experience.

Converso

- Converso is a modern chat app UI with a clean and responsive design. It features real-time messaging, typing indicators,
- The interface includes a contact list, message history, and quick-reply options for a smooth user experience.

Interview Platform

- The website is an AI-powered interview prep platform that offers personalized feedback, mock interviews, and custom practice questions.
- It helps users improve their interview skills with real-time analytics and answer refinement tools..
